Subject: MSFT CASE

This case has gone too far...too long. As a customer I don't feel MSFT did me any harm. In fact MSFT products have been instrumental in my learning to use the computer and benefit from many "efficiencies". The product prices are forever decreasing...and the quality of the products are forever improving. LET THE MARKET GOVERN THIS BUSINESS AND LET COMPETITORS CRY ON ANOTHER SHOULDER...NOT MY GOVERNMENT'S. Help make the world safer, keep out non- US citizens who aim to destroy us. Use our resources to productive ends and not chasing after MSFT for no wrongdoing.

V.P.Miele
